

Cover Crop or Alternative Phosphorus Application \$/acre Incentives

Only complete this section if claiming \$/acre contribution for cover crop or alternative phosphorus application practice. Check applicable practice:

BMP Project Type	Check the Applicable BMP Subcategory
Cover Crops	<input type="checkbox"/> Frost-Terminated Species <input type="checkbox"/> Over Wintering Species
Alternative Phosphorus Application Practices	<input type="checkbox"/> Strip Tillage Application <input type="checkbox"/> Variable Rate Application <input type="checkbox"/> Below Canopy Application

Application Field ID # (refer to initial application or approval letter)	BMP	Final Acres Planted or Applied	\$/acre Incentive	Field Contribution	Verified (LTVCA will complete this section)
				\$	<input type="checkbox"/>
				\$	<input type="checkbox"/>
				\$	<input type="checkbox"/>
				\$	<input type="checkbox"/>
				\$	<input type="checkbox"/>
Total Claim Contribution:				\$	

Declaration and Signature

- Invoice and proof of purchase/implementation documents are attached if applicable to the approved project.
- You acknowledge that the LTVCA will reimburse the claim once staff have confirmed the project is complete and have received the required claim information.
- You agree to complete a field land activity survey with the LTVCA project staff over the duration of the project, to capture your general rotational crop production system (crop rotation, tillage, fertility, average yield estimates), for use in configuring the McGregor and Jeannettes Creek Soil and Water Assessment Tool (SWAT) Model. With the understanding that the data will only be shared in an aggregate form publically and that no business or personal identifier will be shared with other organizations or agencies.
 - Example of an aggregate statement: "Within McGregor Creek 84% of producers have adopted conservation tillage practices".

The signature of the authorized signing authority confirms that the claim is true and was completed in accordance with the terms of the LTVCA McGregor and Jeannettes Creek Phosphorus Reduction Program.
